Tools: Figma, Adobe Photoshop, Canva, Adobe After Effects, Adobe Premiere Pro, AI Tools (Claude, ChatGPT)
Brand & Collaboration: Graphic Design, Branding, Social Media Design, Cross-functional Collaboration, Client Communication
Languages: English, Hindi, Bengali

EXPERIENCE

UI/UX Design Intern, ResQBag Sep 2026 – Present

- Redesigning the customer-side experience of an existing food-rescue marketplace app: 20+ screens in Figma, redesign in progress.
- Set up the Figma file with variables and clearly named pages for easy developer handoff; work with fellow interns and developers.

UI/UX Designer, Freelance 2024 – Present

- Delivered 5+ projects for a client, including social media posters, website designs and redesigns, from brief to final delivery.

UI/UX & Graphic Designer, Kajkarma, Durgapur (Remote) Mar 2025 – Jan 2026

- Started part-time in Mar 2025 and moved to full-time in Jul 2025 based on design quality and client feedback.
- Designed Kajkarma's company website (14+ pages), now live, and 10+ pages across client websites including Malikaziz, Donai Gems, Dalila and Millenniumstar.
- Malikaziz website and mobile website versions were approved in the first review round.
- Designed mobile versions of client websites and 2–3 apps and software interfaces, including an attendance management system.
- Created wireframes, mockups and high-fidelity UI in Figma; checked readability and color contrast, including dark modes; handed off to developers.
- Designed social media visuals and branding assets for Kajkarma campaigns.

Graphic Design Intern, ARC, Kolkata (On-site) Apr 2025 – Jul 2025

- Produced branding, layout and production assets for several concurrent client projects under a senior designer.
- Incorporated feedback through structured review rounds and communicated directly with clients.

PROJECTS

ResQBag – Food Rescue Marketplace App Redesign (UI/UX) In Progress

- Problem: restaurants throw away unsold food daily; the app lets them list surplus cheaply so nearby customers can rescue it.
- Redesigned the customer side (20+ screens): onboarding, login, home, restaurant menu, item details, cart, checkout, my rescues, community and profile.
- Cut item cards from 6–7 pieces of information to 5 and added a stock-left indicator, so users know where to look first and how much food remains.
- Added a bottom sheet for item details and community features beyond the brief, such as letting users add a new restaurant.

CareNearMe – UI/UX Case Study (In Progress)

- Designing a two-sided marketplace app connecting families with local care providers; reviewed existing apps to identify gaps in coverage across India.
- Designed 11+ screens of the family side so far, with the care provider side still to be designed; screens on portfolio at ayushnath.pages.dev.

EDUCATION

Bachelor of Computer Applications (BCA), DSMS College, Durgapur 2024 – 2028 (Expected)

Professional Diploma, Design & Digital Business, School of Design and Media Aug 2024 – Aug 2025
